

# Training Partner Role Criteria

## About Aware

Aware was established in 1985 to support and educate people about depression and bipolar disorder. In recent years there have been a number of key developments within Aware in order to provide clinically proven and independently evaluated support options, aimed at helping people deal with these very common mental health issues.

Each year Aware recruit **qualified and experienced trainers**, to add to their panel to deliver the Life Skills Programmes (*both adult and school version*).

## About the Life Skills Programme

The Life Skills Programmes (LSP) are based on the principles of cognitive behavioural therapy (CBT).

**Life Skills for schools** is delivered during a pre-arranged double class time (70 mins) over 4 consecutive weeks, in a relaxed way (either virtually, via ZOOM, or face to face when safe to do so, re COVID). The programme is very effective in helping students to learn new ways of dealing with life and its difference challenges.

**Life Skills for adults** is delivered during the evening over six consecutive weeks in a group setting (either virtually, via ZOOM, or face to face when safe to do so, re COVID). It is designed for people experiencing mild to moderate depression and participants can learn how to manage their feelings when they feel stressed, worried or depressed, and learn simple and practical skills to help them cope with life's challenges.
